EHL1000 | SMALL BONNET LAMP

The VISION EHL1000 10W Multi Position COB LED Inspection Lamp delivers up to 1000 lumens of bright white light, providing excellent visibility for inspection, maintenance, and repair work. Featuring adjustable 50% and 100% brightness modes, it allows users to balance light output and battery life to suit the task at hand.

Its versatile multi-position design, integrated hook, powerful magnets, and motion sensor technology provide flexible, hands-free illumination exactly where it's needed. Simply wave a hand within 10cm of the sensor to switch the lamp on or off without touching it, making it ideal for busy workshop environments.

Combining powerful performance, intelligent functionality, and practical versatility, the EHL1000 is an essential lighting tool for professional technicians.

EHL1010 | LARGE BONNET LAMP

The VISION Multi Position 40 SMD LED Under Bonnet Lamp is designed to deliver powerful, reliable illumination for vehicle inspection, maintenance, and repair work. Equipped with a high-performance 10W 40 SMD COB LED, it produces up to 1000 lumens of bright 6500K white light, providing excellent visibility across the entire engine bay.

With a wide 135° beam angle and a Colour Rendering Index (CRI) of 75, it ensures clear, accurate lighting for detailed tasks. Powered by a premium 3.7V 4000mAh lithium battery, the lamp offers up to 6 hours of runtime at 500 lumens or up to 4 hours at full 1000-lumen output.

Designed for professional workshop environments, the lamp features USB-C fast charging, reaching a full charge in just 2 hours. Rated to IP20 and IK07 standards, it combines dependable performance with robust durability, making it an essential lighting solution for technicians and mechanics.
